CANINE CARE CERTIFIED

LOOK FOR THE SEAL

Canine Care Certified goes above and beyond currently available canine welfare standards programs. The program sets forth rigorous, science-based, expert-reviewed standards for canine physical and behavioral welfare in areas such as nutrition, veterinary care, genetics, housing, handling, socialization, enrichment, and exercise.

The designation indicates that puppies and dogs raised by a Canine Care Certified breeder are raised under an independently audited program that ensures that specific health and welfare standards have been met.
